Lampiran 3. Web Drug Interaction Checker (*Drug Bank*)

The screenshot shows the Drug Bank website's Drug Interaction Checker. At the top, the Drug Bank logo is on the left, and navigation links for 'Explore', 'For Drug Discovery', 'For Clinical Software', and 'For Academic Research' are on the right. Below this is a dark blue header with the text 'Drug Interaction Checker'. Underneath the header, there are two tabs: 'DRUG INTERACTIONS' (which is active and highlighted in pink) and 'FOOD INTERACTIONS'. The main content area has a dark blue background with a rounded rectangle containing the text 'ADD DRUG TO CHECK FOR INTERACTIONS' and a search input field with 'Tylenol' entered. Below this, a message states 'Add at least two and up to five drugs.' There are three buttons: a large pink 'Check Interactions' button, and two smaller light blue buttons labeled 'CLEAR' and 'LOAD EXAMPLE'. At the bottom, a warning message is displayed in a light red box: 'Warning: If no interactions are found between two drugs, it does not necessarily mean that no interactions exist. Always consult with a healthcare professional.'

Drug Interaction Checker

Use our drug interaction checker to find potentially harmful drug, food, and alcohol interactions.

Add

Type a drug name in the box above to get started.

Not all drugs interact, and not every interaction means you must stop taking one of your medications. Always consult your healthcare provider about how drug interactions should be managed before making any changes to your current prescription.
