**ABSTRAK**

Penyimpanan Obat & BMHP di Depo Farmasi Instalasi Bedah Sentral RSDH Cianjur masih belum teratur di rak/lemari penyimpanan obat, sehingga petugas mengalami kesulitan saat mengambil obat di depo Farmasi Instalasi Bedah Sentral RSDH Cianjur. Penelitian ini bertujuan untuk mengidentifikasi prosedur penyimpanan Obat & BMHP di Depo Farmasi Instalasi Bedah Sentral RSDH Cianjur. Studi ini menerapkan metode penelitian deskriptif dengan pendekatan kualitatif. Jumlah informan dalam penelitian ini adalah 2 orang. Metode pengumpulan data yang diterapkan berdasarkan panduan Observasi, wawancara, dan dokumentasi. Analisis data dilakukan dengan pendekatan yang integratif. Temuan dari penelitian ini menunjukkan bahwa tata letak ruang penyimpanan telah memenuhi kriteria yang ditetapkan. Pada fasilitas dan infrastruktur penyimpanan belum memenuhi kriteria dan sistem penyimpanan obat belum sesuai dengan persyaratan penyimpanan obat. Kesimpulan dari penelitian ini menunjukkan bahwa depo Farmasi Instalasi Bedah Sentral RSDH Cianjur masih belum optimal dalam penerapan penyimpanan obat, dan perlu meningkatkan sarana, prasarana, serta sistem penyimpanan obat agar memenuhi persyaratan yang ditetapkan.

**ABSTRACT**

*Storage of Drugs & BMHP at the Central Surgical Installation Pharmacy Depot of RSDH Cianjur is still not organized on the shelves/drug storage cabinets, so that officers have difficulty when taking drugs at the Central Surgical Installation Pharmacy Depot of RSDH Cianjur. This study aims to identify the storage procedures for Drugs & BMHP at the Central Surgical Installation Pharmacy Depot of RSDH Cianjur. This study applies a descriptive research method with a qualitative approach. The number of informants in this study was 2 people. The data collection method applied was based on the Observation, interview, and documentation guidelines. Data analysis was carried out with an integrative approach. The findings of this study indicate that the layout of the storage room has met the established criteria. The storage facilities and infrastructure have not met the criteria and the drug storage system has not been in accordance with the requirements for drug storage. The conclusion of this study indicates that the Central Surgical Installation Pharmacy Depot of RSDH Cianjur is still not optimal in implementing drug storage, and needs to improve the facilities, infrastructure, and drug storage system to meet the established requirements.*
