**EVALUATION OF THE RECEIPT AND STORAGE OF PHARMACEUTICAL  
PREPARATIONS AT X PHARMACY BASED ON PERMENKES NUMBER 73 OF  
2016 CONCERNING PHARMACEUTICAL SERVICE STANDARDS IN  
PHARMACIES**

***ABSTRACT***

Pharmacy is a Pharmaceutical Service facility where pharmaceutical practice is carried out by pharmacists. Management of pharmaceutical preparations is an activity of pharmaceutical services starting from planning, procurement, receipt, storage, destruction, control, recording and reporting. The purpose of this study was to evaluate the reception and storage system at Pharmacy x. This type of research is a type of observational research with a qualitative descriptive research design. The data collection technique uses a check list with direct observation and documentation. Based on the results of the research that has been carried out, it can be concluded that the receipt of drugs is appropriate, but the storage of drugs in pharmacy x is not fully in accordance with the Minister of Health Regulation No. 73 of 2016 concerning pharmaceutical service standards in pharmacies because there are still preparations that have not been stored in accordance with the therapeutic class.
